Additional information relating to Cordlife's launch of umbilical cord tissue banking services in Singapore

Cordlife Group Limited ("Cordlife", and together with its subsidiaries, the "Group"), refers to the news release, "CORDLIFE AND THOMSON MEDICAL LAUNCH THE FIRST UMBILICAL CORD TISSUE BANKING SERVICE IN SINGAPORE," announced on May 9, 2013.

The Group wishes to clarify that the technology associated with the processing and banking of umbilical cord tissue in Singapore is currently in the research / clinical trial stage of development. As such, any umbilical cord tissue stored by Cordlife in Singapore in connection with the new umbilical cord tissue banking service by Cordlife will only be used in the context of a research / clinical trial. The storage and banking of umbilical cord tissue services provided in Singapore is currently not licensed by the Ministry of Health, Singapore ("MOH"). The Group is presently licensed by MOH to provide cord blood banking services for autologous use.
